OUTSIDER'S VIEW

AS SEEN FROM BAKER
CITY TO PENDLETON.

How Enterprise and Nerve in Busi-
ness Men Impress the People of Dis-
tant Communities—In No Way is
an Unfavorable Impression Sooner
or More Inevitably Made Than
by a Dearth of Advertising in Local
Papers.

The merchants of Pendleton and
Walla Walla are doing an immense
amount of advertising this fall, not
only in the local press, of which they
are very liberal patrons, but they
have inaugurated a system of special
excursion trains between the two
cities. These trains are run two or
three times a week and receipts of a
certain amount are guaranteed to the
railroad company and patrons who
come to town on them are given a
cash rebate that reduces the fare to
a mere trifle. This arrangement costs
some money, but the merchants are
not afraid to spend a few dollars in
advertising their business, knowing
that money so spent is sure to re-
turn profits to the enterprising men
who compose the business element of
the two cities. The papers of these
cities often show several whole page
advertisements of the more enter-
prising business houses, and these
are continued from week to week. It
pays to make their business known,
and now when a dull season is set-
ting in in some towns there is no dull-
ness in Pendleton or Walla Walla.
About as sure a way to make the pa-
trons of a city believe a dull or dead
period has set in, is for the local
press to show a dearth of advertising.
When the "ad" of a well known
business is missing from its usual
place, and then another and another,
the conclusion is at once reached that
a dull period has arrived and made
retrenchment necessary. The public
makes this view correct by ceasing to
patronize the "economical" business
houses and thus a really and truly
hard times period materializes and
may spread to other business con-
cerns. Pendleton and its rival across
the line in Washington do not propose
to be caught by any such "home-
made" hard times. While the rate
for advertising in the papers of Walla
Walla are much higher than any
other city of its size in the Inland
Empire, they continue the most lib-
eral patronage and doubtless find it a
very paying investment. Modern
business methods must be followed
in these modern times or success will
not be made with any business, no
matter how worthy. People must be
told that a business is still running at
the old stand, that it has new goods
and new features and reasonable
prices to offer to the public. If this
is not done business will go where it
is and no prestige of long years in
one place will win against the man
who uses the modern way to secure
business.—Baker City Herald.

ing Shown by Baker and Folsom—
Carload of New Goods.

Baker & Folsom's furniture store
presents to holiday purchasers a col-
lection of rare new ideas in their line,
having made special arrangements
this season to have the newest ideas
the market affords. A few days ago
this enterprising firm received a solid
carload of holiday furniture which is
now on exhibition. It includes some
new ideas never before shown here,
among which is the Napoleon bed, a
beautiful creation. In mission fur-
niture, which is now the rage all over
the country, Baker & Folsom have a
choice collection and it is worth a
visit to the store to see this artistic
line.

Besides an unusual large stock of
bed room suits, parlor suits, dining
room furniture, a splendid new as-
sortment of odd pieces of furniture,
including rockers, divans, book cases,
china closets, etc., are being shown.
A visit to Baker & Folsom's fur-
niture store before making holiday pur-
chases will prove interesting and
profitable.

ASTRONOMICAL EVENT.

"Occultation by the Moon of Alde-
beran."

Washington, D. C., Dec. 20.—Ac-
cording to the officials of the naval
observatory an unusual astronomical
event is to take place tonight. This
is the "occultation by the moon of
Aldeberan, the bright red star in the
eye of Taurus."

Reduced to plain language this
means that as the moon advances
upon the star the latter will suddenly
and unaccountably be extinguished
and will remain so for about an hour
and eight minutes, when the red star
will suddenly emerge on the western
edge of the moon. According to the
learned astronomers the occultation
of a first magnitude star is an unusual
event and one of considerable inter-
est from a scientific standpoint.

Revolution Imminent.

A sure sign of approaching revolt
and serious trouble in your system is
nervousness, sleeplessness, or stomach
upsets. Electric Bitters will quickly
disemember the troublesome causes. It
never fails to tone the stomach, regu-
late the kidneys and bowels, stimulate
the liver, and clarify the blood. Run
down systems benefit particularly and
all the usual attending aches vanish
under its searching and thorough ef-
fectiveness. Electric Bitters is only
50c, and that is returned if it don't
give perfect satisfaction. Guaranteed

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Per-
son's Temperament.

Many people believe that blonde, or
light hair denotes affection and dark
hair constancy. A person without hair
is not devoid of character; far from it.
The disposition of the average bald-
headed man is to show such solicitude
for the welfare of others, that he neg-
lects himself. A germ causes baldness.
Prof. Sabouraud, of Paris, France, in-
oculated a rabbit with Dandruff germs,
causing it to become totally bald in five
weeks' time. To rid the scalp of these
dangerous germs it is necessary to apply
Newbro's Herpicide.

"Destroy the cause—you remove the
effect."
Sold by leading druggists. Send 10c in
stamps for sample to The Herpicide Co.,

Deafness Cannot Be Cured
by local applications, as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that
is by constitutional remedies. Deafness
is caused by an inflamed condition of the
mucous lining of the Eustachian Tube.
When this tube is inflamed you have a
rumbling sound or imperfect hearing, and
when it is entirely closed, deafness is the
result, and unless the inflammation can be
taken out and this tube restored to its
normal condition, hearing will be destroyed
forever; nine cases out of ten are caused
by catarrh, which is nothing but an in-
flamed condition of the mucous surfaces.
We will give One Hundred Dollars for
any case of deafness (caused by catarrh)
that cannot be cured by Hall's Catarrh
Cure. Send for circulars free.
